

# MANATIki JUNE NEWSLETTER

This past month Manatiki Foundation has been blessed enough to hold our very own Mayday Art Contest. It is with great pride that Manatiki releases our collection of original artworks in the Manatiki 2024 calendar from students in Martin and St. Lucie county. The main purpose of the contest was to inspire our local youth to embrace the local habitat we share and raise awareness for wildlife. The winning Art department won \$200 and students received cash awards and certificates. Manatiki will be putting together a full 2024 calendar with the winning students' work being featured along with Eco days of the year. Manatiki hopes to do more work within the local community to better our environment. Below are some featured favorite pieces that Manatiki had the pleasure of receiving for our art contest. Please checkout our website [www.manatiki.org](http://www.manatiki.org) for the full list of official winners, and don't forget to check out our shop where Manatiki is selling everything from plushies, stickers, and apparel to high quality paintings from local artists!
